

Serious Illness Scorecard: State Rating Detailed Information

America's Serious Illness Scorecard reviews each state's capacity to deliver high-quality care to people facing serious illness. The scorecard evaluates five domains:

- Availability of specialty palliative care
- Payment for specialty palliative care services
- Structures to advance palliative care awareness and access
- Basic palliative care professional education for all clinicians
- Structures to meet functional and caregiver support needs

These tables provide details of how your state scored in each domain.

Specialty Palliative Care Availability

Proportion of State's Hospitals (>50 Beds) with Self-Reported Palliative Care Program or Unit			Count of State's Certified Hospice and Palliative Care Professionals per 100,000 Population
